

Introduction

Welcome to our Letter Scramble Game. Everyone is welcome to play. This activity is offered especially to those individuals who live with a physical disability or mental illness in order to improve the enjoyment in life each day.

Instructions

We've designed edition our printable edition for multiple applications:

In a group setting "All Puzzles On One Page" is ideal. This will provide approximately a 40 minute activity. If the equipment is available a video projector could be used to display the puzzle or printed for use as a handout. Going one puzzle at a time will let participants say the words they make using some of the letters in each puzzle. If used in a therapy session (such as a stroke recovery or speech therapy program) you could consider laminating a set using two editions on either side for sterilization before next use. Answers for each puzzle are accessed using the "Table Of Contents" puzzle links under the "Answers" heading. If you are a health care professional and have an idea for a feature we could add to the printable edition please contact us with your input.

For individuals two main styles exist. These are the "Two Puzzles To A Page" and "Hint Puzzle Edition":

When printed the "Two Puzzles To A Page" lets you write down the words you make using some of the letters in the puzzle. These are typically up to six characters long with numerous three and four letter words to be found.

The "Hint Puzzle Edition" solely focuses on words commonly used. This version provides some of the letters with blanks for you to figure out the word.
